

PRESS RELEASE

Cansativa recognized as “Startup Of The Month”

Mörfelden-Walldorf, 20th April 2020

Frankfurt Forward, a project of Wirtschaftsförderung Frankfurt GmbH, awarded Cansativa GmbH the "Startup Of The Month" for April 2020.

Last Thursday, Frankfurt Forward announced the winner of the "Startup Of The Month" award. Several startups pitched for the award in front of a jury made up of members of the Frankfurt Economic Development Agency (Wirtschaftsförderung) and Frankfurt Forward. The winner has the opportunity to network with established companies and investors and automatically qualifies for the election of the "Startup Of The Year" award.

The two brothers and founders Jakob and Benedikt Sons convinced the jury of their company specializing in medical cannabis. Founded in 2017, Cansativa GmbH is an independent wholesaler, one-stop shop and central point of contact for pharmacies when cannabis-based medicinal products are needed. The company with its two sites in Frankfurt am Main and Mörfelden-Walldorf sees medical cannabis as platform and connects relevant stakeholders in the medical cannabis industry. Cansativa's goal is to professionalize the entire industry, improve product availability, reduce costs sustainably and ensure therapy options.

About Frankfurt Forward

Under the patronage of Wirtschaftsförderung Frankfurt GmbH, Frankfurt Forward offers a platform to connect startups, investors and companies from the Frankfurt Rhein-Main region. Networking and knowledge transfer are intended to promote the further development of innovation and digitization in the Frankfurt area.

About Cansativa

Founded in 2017, Cansativa is a GMP-certified pharmaceutical company and holds a GDP pharmaceutical wholesale license to trade in controlled substances. Since the very beginning, Cansativa has operated its own distribution and fulfillment center, and as one of its industry's "first movers", it has become one of the largest independent manufacturers, importers, and distributors of medical cannabis in Germany.
